- Reading

## EXPERIENCE

### Apprentice, IT Department

JK Lakshmi Cement Ltd — October 2023 – Present

- **Grievance Portal:** Developed a web portal using ASP.NET with C# to manage and track employee grievances, improving communication and resolution times.
- **CSR Medicine Portal:** Created a comprehensive portal using ASP.NET with C# to manage:
  - **Medicine Indent:** Streamlined the process of requesting and approving medicine orders.
  - **Medicine Receipt:** Automated the logging and acknowledgment of received medical supplies.
  - **Medicine Issue:** Facilitated efficient distribution of medicines to employees, with real-time inventory tracking.
  - **Summary Stock Statement:** Generated detailed reports for inventory management, reducing stock discrepancies.
- **SAP Monitoring:** Monitored SAP T-Codes and PI/PO, ensuring data integrity and seamless system integration.
- **Low-Code/No-Code:** Developed a Visitor Gate Pass system using Microsoft Power Apps.
  - Implemented key features such as visitor registration, data storage and automated notifications.
  - Improved visitor management efficiency by 30% and reduced manual paperwork.
  - Worked closely with stakeholders to design a user-friendly interface and ensure data security.
- **Electricity Management Portal with SAP Integration:** Contributed to the development of an Electricity Portal using ASP.NET, designed to automate electricity consumption reporting and integrate with SAP systems.
  - Configured SAP RFCs and implemented QR code scanning for automated data entry.
  - Assisted in designing a secure user interface and supported deployment.

## PROJECTS

- I built Portfolio Web Page in which I use HTML, CSS and Tailwind.
- Purpose to make this web page to learn Tailwind and make a responsive portfolio.
